### GENERAL AND PROJECT MANAGEMENT CONSULTANCY

We provide expert advice and guidance on project management, ensuring successful project delivery. Our services include project planning, risk management, and team leadership.

### ONSHORE & OFFSHORE - HSE, LOGISTICS & TRANSPORT

We offer comprehensive HSE services, logistics solutions, and transportation management. Our team ensures compliance with regulatory requirements and industry standards.

Focuses on ensuring rigorous health, safety, and environmental standards are maintained while coordinating the transportation and logistics of personnel, equipment, and materials. This includes developing emergency response plans, conducting risk assessments, and optimizing supply chain logistics to ensure timely and safe operations.

### FINANCIAL CONSULTANCY

Our financial experts provide advisory services on investment, funding, and financial planning. We help clients make informed decisions and achieve their financial goals.

Provides tailored financial advice and strategies for offshore/onshore projects, including budgeting, forecasting, and investment analysis. Consultants help clients understand financial risks, optimize funding structures, and improve financial performance through detailed assessments and tailored financial models.

## PROJECT MANAGEMENT CONSULTANCY

We specialize in project planning, execution, and monitoring. Our team ensures projects are completed on time, within budget, and to the required quality standards.

Guides organizations through the complexities of project management, offering expertise in project planning, execution, and closure. This includes developing project timelines, managing resources, facilitating communication among stakeholders, and utilizing project management software to track progress and mitigate risks.

## TRADING

We engage in trading activities, sourcing, and supplying materials and equipment. We have established relationships with reputable suppliers and ensure competitive pricing.

Involves the facilitation of transactions in goods and services across various markets. This service encompasses market analysis, negotiation strategies, and supply chain management to enhance profitability and operational efficiency, helping clients navigate market fluctuations and capitalize on emerging opportunities.

## BUSINESS DEVELOPMENT CONSULTANCY (SME)

We support small and medium-sized enterprises (SMEs) in business growth and development. Our services include market research, business planning, and strategy development.

Focuses on empowering small and medium enterprises by identifying growth opportunities, enhancing market presence, and optimizing operational processes. Consultants work closely with SMEs to develop actionable strategies for market entry, product development, and customer engagement, ensuring sustainable growth and resilience in competitive landscapes.

## CONSTRUCTION CONSULTANCY

Our construction experts provide consultancy services on building, infrastructure, and civil engineering projects.

Provides expert advice throughout the construction process, from initial design to project completion. This includes ensuring compliance with local building codes and regulations, offering project risk assessments, and facilitating communication among architects, contractors, and clients to achieve project objectives on time and within budget.
